Nidal - I plan to connect to this virtual public meeting at 7:00 pm this evening. The meeting should last approximately 1 to 1.5 hrs. When you have the chance, pls let me know if I need to go through a formal process to earn time for this participation, or whether we can arrange something informal to compensate for this time.

Thank you,
Carol

FYI. Invitation to upcoming virtual public meeting scheduled by Northrop-Grumman to provide an update on Northrop-Grumman's (NG) plans to install three extraction wells, approximately 10,600 feet of underground piping, and a treatment system to treat contaminated groundwater off-site of the former NG facility.

Subject: Community Invitation: January 4, 2021 virtual meeting with Northrop Grumman on the RW-21 Offsite Groundwater Remediation Well Treatment System

Good afternoon everyone,

As we head into the end of the year, Ed Hannon and I wanted to extend an invitation to you to attend our project update on Monday, January 4, 2021, at 7 p.m.

Ed will discuss our project progress and next steps for the RW-21 Offsite Groundwater Remediation Well Treatment System. After his presentation, we will open the floor for questions. You may also send them to me in advance via email or by calling my mobile.

Jason Pelton from the NYSDEC, James Sullivan from the New York State Department of Health, and Town of Oyster Bay representatives will join us on this call as well as other members of the community.

Over 2,100 residents in our work area will also receive a fact sheet and invite in the mail by mid-next week (see attachment) and we are posting the meeting information on our [project web site](#).

We will host a virtual meeting (conference call and via zoom)

Join online at <https://ngc.zoomgov.com/j/1614302540>

Meeting ID: 161 430 2540

Password: 003994

Current social distancing guidelines prevent us from holding a large in-person community meeting so we hope you can join us via phone or Zoom. Thank you.

Have a safe and happy holiday.

Dianne
